

Attendance Assistance Program

DECEMBER 2024

Cold Weather Days AHEAD!

Have you had a change in phone number since the start of the school year? Now is a good time to ensure that all your contact information is up to date as we enter the winter weather months where it is important that the school be able to notify you of any weather related changes in schedule.

Make sure your child has cold weather gear for waiting at bus stops and playing at recess. If you need assistance, please let the school know.

Even though December is filled with holiday excitement and activities, it is important to remember that learning is still taking place and students need to continue their routine as much as possible. Students that miss school in the week before and after school holidays are still missing crucial learning time.

We know holidays are a busy time for many families and that with special activities the schedule sometimes gets students to bed late. It is still important to try and get kids to school even just a little sleepy so they can continue to enjoy December learning activities with their classroom community.
